E and KL:

The city's LLA application states that the applicant is to submit a "letter from the Panhandle health district, and/or the applicable sewer and health districts, stating that the requirements for the sanitary restriction as set forth in Idaho Code title 50, chapter 13, have been met, or are not affected by a readjustment of lot lines."

Below is PHD's confirmation that the LLA will not affect the sanitary restriction.

Thanks.

Marty
